EDUCATION

Judson University

BA, Visual Communication

Graduated June 2007

EXPERTISE

Objective

To use my critical thinking, intuition, and empathy to help solve people's problems. From communicating a vision for how things could be to realizing the pieces and patterns that make it so, I am committed to designing experiences that relieve pain, restore harmony, liberate possibility, and inspire joy.

Tools

Expert: Sketch, Adobe CS, Invision

Knowledgeable: HTML, CSS, Omnigraffle, Zeplin

Usertesting.com, Optimal Workshop, MS Office

Skills

UX Design, UI Design, Product Design, Product Strategy, Illustration, Graphic Design, Branding, Usability Testing, Prototyping, Leadership

EXPERIENCE

User Experience Design Lead

Porch | June 2014 - Present

I help create a product alongside engineering, product, and design that not only helps connect homeowners with professionals, but empowers them to communicate and collaborate easily and painlessly.

Marketing Designer

Lively | November 2013 - June 2014

Lively partnered with artists and venues to record and deliver live shows to fans immediately after the encore through a mobile app. In addition to defining their brand and building their marketing collateral, I partnered with the product and engineering teams to create a seamless mobile and web experience.

Freelance Designer

Design Deeply | September 2012 - November 2013

Clients included Motorola, Premera Blue Cross, PATH, New Horizons Ministries, and Street Bean Espresso.

Senior Designer

Electric Pen | August 2008 - August 2012

Led a team of designers, developing print and digital assets for both local and global professional services firms. Worked directly with clients and vendors to meet objectives, from concept to completion.

Graphic Design Intern

Hale Design | May - July 2008

Assisted in developing identity, print, and web assets for clients in Seattle.
